# A warm welcome!

## Welcome to our catalogue!

We hope you enjoy browsing through our pages! Whilst this catalogue doesn't have our full product range, we have included the products we think will be of most interest to you. Our full range, (and more detailed product information) can be found on our website at [www.reallywildbirdfood.co.uk](http://www.reallywildbirdfood.co.uk), and we are always delighted to take your telephone call, where we can help you with your purchases.

As farmers, spring is always our favourite time of year; our crops start growing as the days (thankfully) become longer and warmer. Birds are nesting and we look forward to

enjoying the summer months ahead.

Looking after your wild birds is a lovely activity that can involve every family member. Attracting wild birds into your garden is both hugely enjoyable and very rewarding, and of course by providing food, water and nesting sites, you are also helping to conserve those species of birds which are sadly suffering population decline; birds like house sparrows, tree sparrows, bullfinches and thrushes.

# Sunflowers

We have been growing sunflowers here on Street End Farm for 12 years. As part of the nature conservation work that we are doing on the farm this year, we will be sowing acres of wild bird cover with a high sunflower content in it. Planting like this dramatically increases the numbers and diversity of farmland birds which we find on the farm.

## Niger Seed

Niger seeds are small, black, oil-rich seeds from the Ramtil plant. Loved by Goldfinches, Siskin and Redpoll. Niger is a fine seed so should be fed from a Niger seed feeder with a seed tray to prevent waste.

## Flutter Butter

### Birds love peanut butter ...

... but the peanut butter we put on our toast is bad for birds – since it has too much salt. Flutter Butter is rich and nutritious - and naturally low in salt to give birds a delicious protein boost all year round. It's available in three great flavours: Original, Buggy and Fruity.

Simply twist a jar into the Flutter Butter Feeder to create an instant feeding point. Just switch jars when empty - with no messy hands!

# Live Foods

If your order includes Live Mealworms, please note that they will arrive separately by Royal Mail

## Live Food

Live foods are an extremely beneficial protein and water source for adults and fledglings, and are also really useful for nursing orphan bats!

British Trust for Ornithology (BTO) data shows that some birds nesting in gardens lay fewer eggs and fledge fewer young than in natural woodland sites. This is likely due in part to a lack of mature trees that provide the insect food the birds need to feed their young. Although robins are the most obvious mealworm lovers, blackbirds, song thrushes, mistle thrushes, pied wagtails and spotted flycatchers all love wriggling food. Mealworms can be kept for several weeks if they are stored at 8-12°C with

adequate food. They do not need to be kept in the fridge.

## Pestfree Plus™

**NEW!**

 Watch the video online!

When the PESTFree+ unit is triggered, the LED lights will activate and the pest believes that it is being watched, this combined with the bursts of Ultrasonic sound results in the animal retreating.

Inaudible to humans and harmless to all species. Deters pests. Banish cats, dogs, foxes, martens and to a lesser degree rabbits from protected areas. A compact, stylish and powerful pest deterrent for your garden, covering an area of 88 sq.m.

While the unit is battery-operated, in areas where there is a lot of traffic (human or animal) we recommend using a mains adaptor kit. Please see our website for details

Made in Britain. Manufacturer's 2 year guarantee

Please note that dogs may detect the ultrasonic waves from the PestFreePlus.

## Free Delivery\* Direct to your door!

We offer free delivery for all orders for seed/peanuts/straights and accompanying feeders, suet, mealworms etc. We have a 'no signature' contract with our courier, so you don't need to be in when your delivery is made. Please just tell us where to leave it when you order. We can deliver to a different UK address (e.g your place of work) at no extra cost to you. If you wish to purchase items, without accompanying seed/peanuts/straights, we charge a flat rate of £5.50 to cover P&P.

## \* Exceptional Delivery Charges

For customers living in Ireland, some regions of Scotland, the Scottish Highlands and Islands, the Isle of Man and the Channel Islands, we unfortunately have to make a charge for delivery. Details as listed - right.

## Same day dispatch

You won't have to wait long for your order. Orders received before 1pm will, wherever possible, be dispatched the same day for next working day delivery. We regret that we do not deliver on Saturdays or Bank Holidays.

## No Quibble Returns Policy

We hope you will be totally satisfied with your purchases. If this is not the case, please let us know why in writing, return the items in the original condition within 14 days, and we will replace the item or refund your money in full, whichever you prefer. This is in addition to, and does not affect your statutory rights.

look for the mark!

“ As someone who is fairly new to feeding birds, I can only reiterate my appreciation and thanks for the customer care you provide - much as I trawl the internet looking for answers, it is a massive help to be able to query things with you and touching that you clearly do care!”

- S Thompson

“ A little note to say thank you for your very efficient service and help with our enquires last week. Everything arrived as arranged this morning and we are delighted.”

- G and D George

“ I simply wanted to thank you for your genuinely exceptional customer service.

I took delivery of my order today, and I am so happy with the feeding station!”
